

PRIANO MARCHELLI & C. S.R.L.

Company Policy on Health and Safety at work

PRIANO & MARCHELLI have started a project aiming at improving health and safety conditions at work; for this purpose, their organizational and management model is compliant with BS OHSAS 18001:2007.

Company fundamentals are as follows:

- ✓ The exact compliance with laws and regulations on health and safety at work;
- ✓ Prevention from diseases at work, as well as accidents through check and avoidance of risks; if these cannot be completely avoided, the company commit themselves to reduce working risks at their minimum;
- ✓ The constant improvement of working conditions, in order to obtain the highest standard for Health and Safety, as well as wellness at work. This means the lack of any obstacle, physical or psychic, which may affect the regular carrying out of activities;
- ✓ The improvement of staff's capabilities and skills in order to achieve objectives related to health and safety at work;
- ✓ Cooperation with Company contractors, production businesses nearby, supervisory bodies and, generally, all third parties involves, in order to increase the whole level of health and safety at work.

In order to apply Company Policy on health and safety at work, PRIANO MARCHELLI Management:

- defines quality objectives by specifying their relevant indicators, assessment and checking methods, as well as improvement indicators to be adopted;
- proceeds with the implementation plan, which outlines all activities to be carried out to achieve the goals, as well as all relevant tasks;
- assesses suitability of staff available, with integration if needed be;
- analyzes process performance by pointing out any possible cause leading to a non-achievement of the goal previously established and taking measures to solve it.

All PRIANO MARCHELLI employees shall contribute to customers' complete satisfaction, as well as the best application of Health and Safety at work System.

Genoa, 1st March 2009

PRIANO MARCHELLI Management:

Security Chairperson : Ernesto Rivarola
