

PRIANO MARCHELLI & C S.r.l.
Company Policy on Environment

PRIANO MARCHELLI are aware that prevention and reduction of environment impacts deriving from working activities are included in the framework of Environment Regulations in force; however, they take voluntary measures to follow these principles in a more efficient way. For this purpose, their Environment Management System is compliant with UNI EN ISO 14001:2004.

This system is structured so as to allow PRIANO MARCHELLI to precisely figure the impacts on environment caused by Company activities and to take measures to prevent, reduce or eliminate risks, monitor the negative impacts, prevent from pollution and follow a constant improvement.

For this purpose, PRIANO MARCHELLI proceed with:

- Pointing out those activities which significantly interact with the environment;
- Checking the carrying out of all relevant activities, as well as their compliance with regulations and environment laws in force and requirements;
- Highlighting aspects on which they should take measures to prevent, reduce or eliminate any possible impact on environment;
- Defining objectives and goals for improving the environment;
- Periodically assessing the appropriateness of goals and objectives by defining, if needed be, any integration, change, update for a constant improvement;

PRIANO MARCHELLI are aware of everybody's role in protecting the environment. For this purpose, PRIANO MARCHELLI make the Environment Policy at disposal, adopt appropriate means to spread this document and involve their staff and suppliers, in order to efficiently follow the goals of Environment Management System.

All PRIANO MARCHELLI Staff is kindly invited to collaborate in this activity.
